

DAE Maths Level Test (Scratch) -scratch bundle (to hand in!)-

Full Name:

Date:

- **For this exam** any course materials, resources, summaries, aids or calculators (of any type) are forbidden. For reasons of reliability of this level test, computers, (smart)phones and personal scratch paper are not allowed: just be with your writing materials. **Make sure to sign the participant's list before leaving.**
- You receive three bundles: a **scratch bundle which you mark clearly with an oversized capital 'S'**, a lab bundle and a theory bundle. Though even the scratch bundle needs to be handed in, it is not considered for marking. Before leaving the room hand in all bundles - your lab bundle, your theory bundle and your scratch bundle - to the invigilator.
- Start completing **the lab part** on the first official answer bundle **which you mark clearly with an oversized capital 'L'**. Results which appear without any preceding logical solution steps are doubtful. Make sure these practice exercises appear on their dedicated lab bundle only.
- Proceed answering **the theory part** purely pen-and-paper, on the second official answer bundle **which you mark clearly with an oversized capital 'T'**. Results which appear without any preceding logical solution steps are doubtful. Make sure these theory answers appear on their dedicated theory bundle only.
